

## Food Recommendations List for Puppies

Here is the list of foods for a puppy. When he gets older there are other foods that can be added to this list. These foods are for puppies. A few of these companies specifically have a puppy formula so I have put in parentheses that they have a puppy food.

These companies aren't listed in any particular order. That being said, I have highlighted the foods that we prefer. We prefer those foods because they are reputable companies with quality food, and they don't high pressure pasteurize (hpp) their food, or use any synthetic vitamins or minerals in their food.

**Small Batch** – They offer raw frozen, gently cooked. They high pressure pasteurize their freeze dried food and we don't recommend hpp food.

**Raw Dynamic** – They offer raw frozen and freeze dried. They high Pressure Pasteurize their poultry and we don't recommend hpp food.

**Solutions Pet** – Raw frozen, fermented

**Bones & Co** – They offer raw frozen and freeze dried. They high Pressure Pasteurize their poultry and we don't recommend hpp food.

**All Provide** – They offer raw frozen and gently cooked (They have a puppy formula)

**Steve's Real Food** – This food is high pressure pasteurized but is a good company and doesn't use synthetics vitamins or minerals in their food. Raw and freeze dried.

**Green Juju** – This food is high pressure pasteurized at low temp but is a good company and doesn't use synthetics vitamins or minerals in their food. Freeze Dried

**Raised Right** – Gently cooked also air dried (They have a puppy formula)

**Oma's Pride** – Bacteriophage, (not the complete which has synthetic vitamins/minerals)

**Raw Bistro** – No hpp, some synthetic vit/mins

**Big Dog Natural** – Dehydrated and fermented

**Raw Paws Pet Food** – Order online. Also local to Indianapolis

**BJ's Raw Pet Food** – Order Online

The following companies have various meats, organs, bones, etc and they also have complete blends. Check with them for their puppy blends.

**Raw Dog Food & Company** – Order online. They have blends, meat, organs, etc. This company has recently added some hpp foods and a line of complete that contains synthetic vitamins and minerals and we don't recommend high pressure pasteurized foods nor do we recommend synthetic vitamins and minerals. If you purchase from them, buy the foods that are not hpp and do not have synthetics.

**Anderson's Natural Pet Food** – Order Online

**Hare Today** – Online Raw

**Crude Carnivore** – Is a good source for bone broth
