

Food Recommendations List for Cats

Here is the list of cat foods. The **highlighted** foods can be found at an independent pet store that sells raw pet food.

We prefer foods that have not been high pressure pasteurized (HPP), but we have included brands that do HPP. They are reputable companies with quality food that don't have any synthetic vitamins or minerals in their food. I have made notes below on those brands.

If you purchase from them, buy the foods that are not HPP and do not have synthetics.
