

Food Recommendations List for Puppies

Here is the list of puppy foods. When they get older there are other foods that can be added to this list. A few of these companies specifically have a puppy formula so I have put in parentheses that they have a puppy food.

The **highlighted** foods can be found at independent pet stores that sell raw pet food. We prefer foods that have not been high pressure pasteurized (HPP), but we have included brands that do HPP. They are reputable companies with quality food that don't have any synthetic vitamins or minerals in their food. I have made notes below on those brands.

All Provide	They offer raw frozen and gently cooked (They have a puppy formula)
Big Dog Natural	Dehydrated and fermented

Oma's Pride	Bacteriophage, (not the complete which has synthetic vitamins/minerals)

The following companies have various meats, organs, bones, etc. and they also have complete blends. Check with them for their puppy blends.

Anderson's Natural	Order Online
Hare Today	Order Online
Raw Dog Food & Company	Order online. They have blends, meat, organs, etc. This company has recently added some HPP foods and a line of complete that contains synthetic vitamins and minerals and we don't recommend high pressure pasteurized foods nor do we recommend synthetic vitamins and minerals. If you purchase from them, buy the foods that are not HPP and do not have synthetics.
